The information statement shall be sent or given to shareholders no later than September 13, 2022.

2. Dissenter's Right of Appraisal

A shareholder of the Club has the right to dissent and demand payment of the fair value of his shares in the following instances: (a) in case any amendment to the articles of incorporation has the effect of changing or restricting the rights of any shareholder or class of shares, or of authorizing preferences in any respect superior to those outstanding shares of any shares or any class, or of extending or shortening the term of corporate existence; (b) in case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property and assets as provided in the Revised Corporation Code of the Philippines ("Revised Corporation Code"); (c) in case of investment of corporate funds in any other corporation or business or for any purpose other than the Club's primary purpose; and (d) in case of merger or consolidation.

The shareholder concerned must have voted against the proposed corporate action in order to avail himself of the appraisal right. As provided in the Revised Corporation Code, the procedure in the exercise of the appraisal right is as follows:

- a. The dissenting shareholder files a written demand within thirty (30) days after the date on which the vote was taken. Failure to file the demand within the thirty-day period constitutes a waiver of the right. Within ten (10) days from demand, the dissenting shareholder shall submit the stock certificate/s to the Club for notation that such shares are dissenting shares. From the time of the demand until either the abandonment of the corporate action in question or the purchase of the shares by the Club, all rights accruing to the shares shall be suspended, except the shareholder's right to receive payment of the fair value thereof.
- b. If the corporate action is implemented, the Club shall pay the shareholder the fair value of his shares upon surrender of the corresponding certificate/s of stock. Fair value is determined by the value of the shares of the Club on the day prior to the date on which

vote is taken on the corporate action, excluding any appreciation or depreciation in value in anticipation of the vote on the corporate action.

- c. If the fair value is not determined within sixty (60) days from the date of the vote, it will be determined by three (3) disinterested persons (one chosen by the Club, another chosen by the shareholder, and the third one chosen jointly by the Club and the shareholder). The findings of the appraisers will be final, and their award will be paid by the Club within thirty (30) days following such award, provided the Club has sufficient unrestricted retained earnings. Upon such payment, the shareholder shall forthwith transfer his shares to the Club. No payment shall be made to the dissenting shareholder unless the Club has unrestricted retained earnings.
- d. If the shareholder is not paid within thirty (30) days from such award, his voting rights shall be immediately restored.

There is no matter to be taken up at the annual meeting on October 04, 2022 which entitles a dissenting shareholder to the exercise of the appraisal right.

3. Interest of Certain Persons in or Opposition to Matters to be Acted Upon

No director or executive officer of the Club or nominee for election as such director or officer has any substantial interest, direct or indirect, in any matter to be acted upon at the annual shareholders' meeting, other than election to office. PART I – BUSINESS AND GENERAL INFORMATION

ITEM 1: BUSINESS DEVELOPMENT AND BUSINESS OF ISSUER

THE PALMS COUNTRY CLUB, INC. (the "Club") is a stock, not-for-profit corporation which was duly registered with the SEC on May 24, 2000 under SEC Registration No. A-2000-05129. Its primary purpose is to foster, conduct and promote social, business and athletic activities among its members, with the main objective of engaging in the development, construction, maintenance, management and operation of a recreational sports club that will provide members thereof the use and enjoyment of facilities for indoor and outdoor sports, recreational and physical fitness activities, restaurants, dining halls and similar facilities. No part of the income or assets of the Club shall belong to or inure to the benefit of any member, officer or any specific person.

As a not-for-profit corporation organized for the purposes stated above, the Club is subject to 25 % Regular Corporate Income Tax. Revenue memorandum Circular No. 35-2012 clarified the taxability of Clubs organized and operated exclusively for pleasure, recreation and other non-profit purposes. Accordingly, organizations that were established for recreation and other non-profit purposes such as country clubs must pay income tax under National Internal Revenue Code (NIRC) and VAT. The Club's gross receipts including but not limited to membership fees, assessment dues, rental income and services fees are subject to income tax and VAT. The Association of Non-profit Clubs, Inc. (ANPC) submitted to BIR a position paper requesting the non-application of RMC 35-2012 on the grounds that membership dues collected from members are used to defray the expenses of the exclusive membership clubs and should not be subject to income tax and VAT. On September 17, 2014, ANPC filed a petition before the RTC declaring RMC 35-2012 as invalid, unjust, oppressive, confiscatory, and in violation of due process clause of the constitution. On August 15, 2019, the Supreme Court has ruled that membership fees, assessment fees and other fees collected by clubs which are organized and operated exclusively for pleasure, recreation and non-profit purposes are not subject to income and VAT.

The Club had an initial capital stock of eight (8) no par value share, consisting of seven (7) Founder's Shares and one (1) common share. As approved by the Securities and Exchange Commission (SEC) on November 20, 2000, the capital stock was increased to four thousand six hundred (4,600) common no par value shares divided into one thousand nine hundred seven (1,907) Class "A" shares (including the seven (7) Founder's Shares), two hundred fifty (250) Class "B" shares, one hundred fifty (150) Class "C" shares and two thousand two hundred ninety three (2,293) Class "D" shares (including the original one (1) common share).

The Club's principal place of business is at 1410 Laguna Heights Drive, Filinvest Corporate City, Alabang, Muntinlupa City.

The operations and business of the Club are subject to ordinances, rules and regulations issued or enacted by the local government of Muntinlupa City.

The Club is a private and exclusive propriety membership club. It is a comprehensive "resort-within-the-city" club that offers a complete range of services and facilities to members. It is part of the hospitality industry specifically operating as a family-oriented, deluxe country club located south of Manila. Membership is limited to those who have purchased membership shares and have been duly prescreened by the Board of Directors.

The Club has generated total revenue of ₱199.1 million for the year ended December 31, 2021. Food and beverage, Membership dues, Sports and recreation, Club Shop and other miscellaneous revenues contributed 44.1%, 42.8%, 3.7 and 9.4% respectively.

Alabang Country Club, Rockwell Club, and Manila Polo Club are generally the Club's main competitors. However, aside from these exclusive membership clubs, Palms also competes directly in the area of banquet business with nearby hotels/condotels such as Bellevue Manila, Vivere Suites, Acacia Hotel, Crimson Hotel, The Filinvest Tent, Palazzo Verde (formerly Fernbrook Gardens) and the Somerset Alabang. Those competing with the Club for restaurant business include the free-standing restaurants in the Alabang Town Center, Festival Mall, Westgate Center, River Park Festival Mall, Molito and Commerce Center in Filinvest City.

The Bellevue Manila is considered to be one of the banquet competitors considering it having two towers for accommodation. Vivere Suites has a competitive Ballroom that can accommodate 150 pax. The edge of Acacia Hotel is having two Ballrooms with 200-300pax capacity. Crimson Hotel highlights its banquet events in its 300pax-capacity Ballroom. Palazzo Verde, on the other hand, as a competitor continues to contribute to the decline of the Club's wedding market due to the romantic ambiance created by the different settings of the venue plus the Basilica inside which could include the wedding ceremony. The Filinvest Tent is now a venue that could accommodate from 500 to 2,000 guests. Somerset Alabang has two function rooms which can accommodate 100 guests per function room.

The relative strengths of its hotel competitors are the fully furnished and well-stocked guestrooms and hotel services, i.e. room service, bar lounge with regular entertainers, shuttle service to and fro the malls. The hotels enjoy continued patronage and acquire corporate market of consecutive-day seminars due to the additional amenities and services provided.

The Club also expanded its business with outside catering services, enabling it to service loyal club members in their homes and other venues such as office buildings and special events place. The tie up with The Filinvest Tent as a bigger venue allows the Clubs to cater up to 4,000 persons.

The Club offers "value for money" pricing, which enables it to get a relatively substantial share of the banquet market. The strength of the banquet business in Alabang Country Club, Rockwell Club and Manila Polo Club is their lower pricing level.

In order for The Club to compete effectively and efficiently with its competitors, it is necessary to maintain the high-quality of food and beverage offerings, first-class standard of service and well thought-out events and activities.

The Club has 149 probationary and regular employees as of December 31, 2021 and 155 as of December 31, 2020. Out of the 149 employees, 29 have administrative functions while 120 discharge duties related to operations. There is no collective bargaining agreement that exists between the management and employees. No tipping is allowed in the Club. Employees may not receive either tips or gifts from members. Service charge of 10% is being collected from F&B sales and distributed to all probationary and regular employees every month.

ITEM 2: PROPERTIES

The Club owns a 30,000-square meters parcel of land (the "Property") situated at 1410 Laguna Heights Drive, Filinvest Corporate City in Alabang, Muntinlupa City, and covered by Transfer Certificate of Title No. 209983 issued by the Registry of Deeds for Muntinlupa City. The country club building was constructed on the Property. The building is covered by Tax Declaration Number E-005-08273 duly issued by the City of Muntinlupa.

Both the Property and building are the subject of separate subscription agreements entered into between the Club and its developer, Filinvest Alabang, Inc. ("FAI").

Under the terms of the Subscription Agreement dated September 14, 2000, as amended on October 20, 2000, FAI:

- ceded, transferred, assigned and delivered to the Club the Property valued at ₱14,000 per square meter or a total of ₱420,000,000, in exchange for 867 Class "A" shares, 115 Class "B" shares and 68 Class "C" shares, or a total of 1,050 shares.
- developed the Property into a world class sports and country club with facilities and equipment necessary to operate the Club, in exchange for 1,033 Class "A" shares, 135 Class "B" shares and 82 Class "C" shares, or a total of 1,250 shares.

In 2004, the corresponding shares of stock were issued to FAI upon final acceptance of the Property by the Club. And pursuant to a Subscription Agreement entered into in December 2004, the advances of FAI for the development of the country club building in the amount of ₱ 687,693,521 were further exchanged for equity in the Club.

There is no mortgage, lien or encumbrance over the Property and the building.

There is no property being leased by the Club. Neither does the Club intend to lease any of its properties in the next 12 months.

The Club has no intention to acquire properties in the nature of capital assets in the next twelve (12) months, except for major repairs and maintenance of some facilities in order to continue to live up to the members' expectations through continuous improvements, facelifts and renovations.

ITEM 3: LEGAL PROCEEDINGS

The land forms part of Lot 392 of the Muntinlupa Estate in the name of the Republic of the Philippines and developed by FAI (the developer referred to in Note 2) into what is now known as the Filinvest City. Lot 392 is the subject matter of Civil Case Nos. 99-075 and 99-320 for annulment of titles and contracts, considered to be nuisance suits. In its resolution dated July 30, 2007, the Supreme Court affirmed the dismissal of Civil Case No. 99-075 by the trial court and the Court of Appeals. On the other hand, the trial court has required the plaintiffs in Civil Case No. 99-320 to pay the docket fees corresponding to the value of the property subject of the case. As of December 31, 2008, the plaintiffs have not done so. Accordingly, counsel for FAI filed in February 2009 a

"Motion to dismiss" praying that the case be dismissed with prejudice. The Motion to dismiss was granted on November 19, 2009.

ITEM 6: MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

Discussion of the Results of Operations for 2021 vs. 2020 and 2019

The impact of the Covid-19 pandemic was very evident in the results of operations for the year 2020 and 2021 comparing to year 2019. Although there was an improvement in year 2021 due to easing of restrictions, the Club operations still resulted to a net loss.

The Club generated total revenue of ₱199.1 million for the year ended December 31, 2021 compared to ₱192.9 million in 2020 and ₱367.6 million in 2019. Food and Beverage revenues increased by ₱3.9 million from ₱83.9 million in 2020 to ₱87.8 million this year. The Club allowed the members to order food for delivery and opened some outlets but with very low patronage. Food and beverage contributed 44.1% to the total revenue. Membership dues collected for the year was ₱85.2 million or 42.8% of total revenues. Despite closure of the Club, membership dues were continually charged to members. Sports and recreations posted revenues of ₱7.4 million in 2021, ₱7.7 million in 2020 and ₱27.9 million in 2019. It contributed to the total club revenues of 3.7%, 4.0% and 7.5% respectively. The decrease in revenues of ₱.24 million in 2021 is mainly due to cancellation of major sports events and activities. Club Shop and other miscellaneous revenues was ₱18.7 million in 2020, ₱15.6 million in 2020 and ₱32.6 million in 2019. It contributed 20.2% in this year's total revenues. Club Shop and other revenues include transfer fees, assignment and re-nomination fees, revenues from party packages, equipment hires, and sales from merchandise, among others.

Total direct cost amounting to ₱124.7 million represented 62.7% of the total revenues compared to 62.4% or ₱120.3 million in 2020 and 70.2% or ₱251.3 million in 2019. Total cost of Sales percentage was 26.7% of the total revenues in 2021 compared to 25.3% in 2020. Direct payroll cost was ₱34.7 million in 2021 and ₱38.9 in 2020 or 17.4% and 20.2% respectively. Other major direct costs relate to utilities, laundry and operating supplies which accounted for ₱24.7 million or 12.4% of the total revenue for 2021 and ₱23.2 million or 12.0% in 2020. Banquets and special events expenses was ₱5.1 million. Marketing and other expenses was ₱4.6 million, and other direct expense of ₱1.0 million.

The total other operating expenses excluding depreciation amounted to ₱57.2 million in December 31, 2021 compared to ₱63.3 million in 2020 and ₱73.3 million in 2019. Excluded in the operating expenses is the ₱6.6 million lease charges of chilled water supply for the year 2021. The decrease is attributed to the decrease in general and administrative expenses as effect of the limited operations of the Club. The management continues to implement measures to control operating costs.

Total depreciation expense for 2021 was ₱28.7 million compared to ₱28.6 million in 2020 or a decrease of ₱.2 million or .5%. This is because some equipment has fully depreciated this year.

There were 6 new members from 2,151 in December 31, 2020 to 2,157 in December 31, 2021. The slow growth in the sale of shares can be attributed to the availability of the secondary market which is competing in the sale of fresh shares. Total membership dues collected for the year was ₱85.2 million. Management continues to implement a discount scheme where members have the option to pay in advance twelve-month's worth of membership dues in exchange for ₱3,300.00 worth of gift voucher which members can avail in any restaurant outlets in the Club.

Total Current Assets stand at ₱124.0 million this year compared to ₱139.3 million in December 31, 2020 and ₱169.6 million in 2019. Of the total current assets, 62.8% represented cash, 26.1% contract receivables, .5% due from related parties, 7.7% inventories and 2.8% other current assets. Contract receivable as of December 31, 2021 increased by 21.3% due to the increase in members' usage of facilities. Since the alert level 1 was implemented, members started coming to the club. Total inventories also increased 11 by 6.7% in December 31, 2021 mainly due to increased purchases of food and beverages.

Acquisition of property and equipment for the year ending December 31, 2021 was ₱22.2 million. Major repairs were done which includes the waterproofing of Multipurpose Hall (MPH) area, additional computers for offices, the Human Resources Information System (HRIS) project and some kitchen equipment to name a few. The equipment and repairs are needed to maintain and improve the quality of facilities and services available to the members.

Total current assets stood at ₱124.0 million while current liabilities stood at ₱67.3 million. The Club's current ratio was at 1.83 by December 2021. To improve cash position, penalty charges of 2% per month or 24% per annum were enforced against members with overdue accounts. In addition, the use of the Club's facilities and amenities is suspended with respect to members whose accounts are overdue for 60 days or more. Quick ratio is favorable at 1.64 while solvency ratio is at 10.03 with total assets of ₱938.2 million over total liabilities of ₱93.6 million. The Club's debt ratio is strong at 0.11 with total liabilities of ₱93.2 million over total assets of ₱938.2 million.

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of The Palms Country Club, Inc. (the Club), which comprise the statements of financial position as at December 31, 2021 and 2020, and the statements of revenues and expenses, statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2021, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Club as at December 31, 2021 and 2020, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2021 in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Club in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Club's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless management either intends to liquidate the Club or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Club's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Club's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Club's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Club to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Significant Accounting Policies

Current versus Noncurrent Classification

The Club presents assets and liabilities in its statement of financial position based on a current and noncurrent classification. An asset is current when it is:

- a. expected to be realized or intended to be sold or consumed in normal operating cycle;
- b. held primarily for the purpose of trading;
- c. expected to be realized within twelve (12) months after the reporting period; or
- d. cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve (12) months after the reporting period.

All other assets are classified as noncurrent.

A liability is current when:

- a. it is expected to be settled in normal operating cycle;
- b. it is held primarily for the purpose of trading;
- c. it is due to be settled within twelve (12) months after the reporting period, or
- d. there is no unconditional right to defer the settlement of the liability for at least twelve (12) months after the reporting period.

The Club classifies all other liabilities as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

Cash

Cash includes cash on hand and in banks. Cash in bank earns interest at the prevailing bank deposit rate.

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Club. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Club uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Fair Value Hierarchy of Financial Instruments Recognized at Fair Value

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Club determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Financial Instruments

Financial assets and liabilities are recognized in the statement of financial position when, and only when, the Club becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery or assets within the time frame established by regulation or convention in the marketplace are recognized on the trade date.

Recognition and Measurement of Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as either subsequently measured at amortized cost, at FVTOCI, or at FVTPL.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Club's business model for managing them. The Club initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs.

In order for a financial asset to be classified and measured at amortized cost or at FVTOCI, it needs to give rise to cash flows that are 'solely payments of principal and interest' on the principal amount outstanding. This assessment is referred to as the 'solely payments of principal and interest test' and is performed at an instrument level.

The Club's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Club commits to purchase or sell the asset.

As of December 31, 2021, and 2020, the Club's financial assets comprise of financial assets at amortized cost.

Subsequent measurement

Financial assets are measured at amortized cost if both of the following conditions are met:

- the asset is held within the Club's business model whose objective is to hold assets in order to collect contractual cash flows; and,
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized costs are subsequently measured at amortized cost using the effective interest rate (EIR) method less any impairment in value, with the interest calculated recognized as interest income in the statement of revenues and expenses.

The Club classified cash, contract receivables and due from related parties as financial assets at amortized cost (see Note 4, 5, 10 and 18).

Reclassification of financial assets

The Club can reclassify financial assets if the objective of its business model for managing those financial assets changes. The Club is required to reclassify the following financial assets:

- from amortized cost to FVTPL if the objective of the business model changes so that the amortized cost criteria are no longer met; and,
- from FVTPL to amortized cost if the objective of the business model changes so that the amortized cost criteria start to be met and the instrument's contractual cash flows meet the amortized cost criteria.

Reclassification of financial assets designated as at FVTPL at initial recognition is not permitted.

A change in the objective of the Club's business model must be effected before the reclassification date. The reclassification date is the beginning of the next reporting period following the change in the business model.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

As of December 31, 2021, and 2020, the Club's financial liabilities comprise financial liabilities at amortized cost (loans and borrowings).

Subsequent measurement

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. The EIR amortization is included as finance costs in the statement of revenues and expenses.

Impairment of Financial Assets

The Club recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Club expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For cash, the Club applies the low credit risk simplification. The probability of default and loss given defaults are publicly available and are considered to be low credit risk investments. The Club also evaluates the credit rating of the bank and other financial institutions to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs. It is the Club's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on lifetime ECL.

The Club applies a simplified approach in calculating ECLs for financial assets at amortized costs. Therefore, the Club does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Club has established a provision matrix for its

contract receivables that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For due from related parties, ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The Club considers a financial asset in default when contractual payments are 60 days past due. However, in certain cases, the Club may also consider a financial asset to be in default when internal or external information indicates that the Club is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Club. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Derecognition of Financial Assets and Financial Liabilities

Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Club's statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or,
- The Club has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and either (a) the Club has transferred substantially all the risks and rewards of the asset, or (b) the Club has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Club has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Club continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Club also recognized an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Club has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Club could be required to repay.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or has expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of comprehensive income.

Offsetting Financial Instruments

Financial assets and financial liabilities are only offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and the Club intends to either settle on a net basis, or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, where the related assets and liabilities are presented at gross in the statement of financial position.

Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). NRV is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale. Cost includes purchase price, freight and handling costs and is determined using the first-in, first-out method.

Other Current Assets

Other current assets pertain to advances to suppliers, creditable withholding taxes, and other current assets such as prepayments and deposits which controlled by the Club as a result of past events and from which future economic benefits are expected to flow to the Club within one (1) year after the reporting period.

Property and Equipment

Property and equipment consist of land, land improvements, building, and sports, kitchen and other facilities and equipment. Except for land, the Club's property and equipment are stated at cost, less accumulated depreciation and any impairment in value. Land is stated at cost, less any impairment in value. The initial cost of property and equipment consists of its purchase price, including import duties, taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use, including borrowing cost.

Expenditures incurred after the assets have been put into operation, such as repairs and maintenance, are normally charged to operations in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment.

Depreciation is calculated on a straight-line basis over the estimated useful lives (EUL) of the assets, as follows:

	Years
Land improvements	10
Building	40
Sports, kitchen and other facilities and equipment	5-20

The useful lives and depreciation method are reviewed periodically to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

When an item of property and equipment is derecognized, the cost of the related accumulated depreciation and accumulated impairment loss, if any, is removed from the account. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of revenues and expenses in the year the asset is derecognized.

Other Noncurrent Assets

Other noncurrent assets include operating equipment that are carried at cost, less any impairment. Operating equipment is expensed ratably to the appropriate department expense account over its period of consumption.

Impairment of Nonfinancial Assets

The Club assesses at each reporting date whether there is indication that its nonfinancial assets (i.e., property and equipment and other noncurrent assets) may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Club makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is assessed as part of the CGU to which it belongs. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples and other available fair value indicators. An impairment loss is charged to operations in the year it arises.

A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount of an asset, however, not to an amount higher than the carrying amount that would have been determined (net of any depreciation) had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is credited to current operations.

Leases

Club as lessor

Leases where the Club does not transfer substantially all the risks and rewards of ownership of the asset are classified as operating leases. Rental income on operating leases is recognized on a straight-line basis over the lease term. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same bases as rental income (see Note 19).

Club as lessee

Except for short-term leases and lease of low-value assets, the Club applies a single recognition and measurement approach for all leases. A finance lease is a 'lease that transfers substantially all the risks and rewards incidental to ownership of an asset', and an operating lease is 'a lease other than a finance lease', i.e. a lease that does not transfer substantially all the risks and rewards incidental to ownership.

The Club's classification of a lease depends on the substance of the transaction rather than the form of the contract. The following situations individually or in combination would normally lead to a lease being classified as a finance lease:

- the lease transfers ownership of the asset to the lessee by the end of the lease term;
- the lessee has the option to purchase the asset at a price which is expected to be sufficiently lower than the fair value at the date the option becomes exercisable such that, at the inception of the lease, it is reasonably certain that the option will be exercised (frequently called a 'bargain purchase' option);
- the lease term is for the major part of the economic life of the asset even if title is not transferred;

- at the inception of the lease the present value of the minimum lease payments amounts to at least substantially all of the fair value of the leased asset; and
- the leased assets are of a specialized nature such that only the lessee can use them without major modifications being made.

The Club recognized its finance lease as assets and liabilities in its statements of financial position at the commencement of the lease term at amounts equal to the fair value of the leased item or, if lower, at the present value of the minimum lease payments, each determined at the inception of the lease. In calculating the present value of the minimum lease payments, the discount factor is the interest rate implicit in the lease, if this is practicable to determine; if not, the lessee's incremental borrowing rate should be used. Any initial direct costs of the lessee are added to the recognized asset. At commencement, both asset and liability are recognized separately, with an appropriate distinction between current and non-current liabilities being made.

Lease payments made are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge should be allocated to periods during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. As of December 31, 2021, and 2020, the Club recognized interest expense in relation to finance lease amounting to ₱6.89 million and ₱6.60 million, respectively (see Note 19).

Retirement Costs

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit obligations comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset
- Remeasurement of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the statement of revenues and expenses. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by an independent qualified actuary.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in the statement of revenues and expenses.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in other comprehensive income (OCI) in the period in which they arise.

Remeasurements are not reclassified to profit or loss in subsequent periods.

Equity

Capital stock with no par or stated value is measured at the amount of total contributions received.

Accumulated deficiency of revenues and membership dues over costs and expenses and income tax represents accumulated net losses and earnings and any adjustment arising from application of new accounting standards, policies or corrections of errors applied retroactively by the Club.

OCI

OCI are items of income and expense that are not recognized in profit or loss for the year in accordance with PFRS. The Club's OCI pertains to remeasurement adjustments on its pension liability.

Revenue recognition

The Club primarily derives its revenues from membership dues, sale of food and beverage, sports and recreation and Club shop and other operating department revenues.

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Club expects to be entitled in exchange for those goods or services. The Club assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Club has generally concluded that it is acting as principal in all of its revenue arrangements.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 3.

Club Revenues

The Club revenues consist of revenue from membership dues, sale of food and beverage, sports and recreation, and other Club shop and other operating department revenues. These are accounted for as follows:

Membership dues

Revenue from membership dues is recognized over the time the related services are rendered and/or facilities and amenities are used. Transaction price is determined to be the approved monthly membership rate by the BOD. Each is considered as a single performance obligation; therefore, it is not necessary to allocate the transaction price. The service is capable of being distinct from the other services and the transaction price for each service is separately identifiable. Revenue is recognized over the time the related services and/or facilities and amenities are used since the customer simultaneously receives and consumes services provided by the Club.

Membership dues are billed one month in advance and are recognized in the statement of revenues and expenses over the period when these are due.

Collections for accounts which are not yet due and therefore do not qualify for revenue recognition are recorded as "Contract liabilities" account in the current liabilities section of the statement of financial position.

Food and beverage

Revenue from sale of food and beverage is recognized at a point in time the goods are served or delivered. Transaction price is determined to be the invoice amount and, each transaction is considered as a single performance obligation, therefore it is not necessary to allocate the transaction price. The goods are capable of being distinct from the other goods and the transaction price for each

good is separately identifiable. Revenue is recognized at a point in time when the related risks and rewards are transferred to the customer or actual possession is transferred.

Sports and recreation

Revenue from sports and recreation is recognized over the time the facilities and amenities are used. Transaction price is determined to be the invoice amount and, each transaction is considered as a single performance obligation, therefore it is not necessary to allocate the transaction price. The service is capable of being distinct from the other services and the transaction price for each service is separately identifiable. Revenue is recognized over the time the customer uses the facilities and amenities provided by the Club.

Club shop

Revenue from Club shop is recognized at a point in time the goods are served or delivered. Transaction price is determined to be the invoice amount and, each transaction is considered as a single performance obligation, therefore it is not necessary to allocate the transaction price. The goods is capable of being distinct from the other goods and the transaction price for each goods is separately identifiable. Revenue is recognized at a point in time when the related risks and rewards are transferred to the customer or actual possession is transferred.

Contract Balances

Contract Receivables

A receivable represents the Club's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Club performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Club has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Club transfers goods or services to the customer, a contract liability is recognized when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Club performs under the contract.

The contract liabilities also include payments received by the Club from the members for which revenue recognition has not yet commenced.

Contract fulfillment assets

Contract fulfillment costs are divided into: (i) costs that give rise to an asset; and (ii) costs that are expensed as incurred. When determining the appropriate accounting treatment for such costs, the Club firstly considers any other applicable standards. If those standards preclude capitalization of a particular cost, then an asset is not recognized under PFRS 15.

If other standards are not applicable to contract fulfillment costs, the Club applies the following criteria which, if met, result in capitalization: (i) the costs directly relate to a contract or to a specifically identifiable anticipated contract; (ii) the costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and (iii) the costs are expected to be recovered. The assessment of this criteria requires the application of

judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recoverable.

As of December 31, 2021, and 2020, the Club has no contract fulfillment assets.

Cost of Club Operations

Cost of Club operations pertains to expenses incurred in relation to sale of goods and rendering of services. These are recognized when incurred and measured at the amount paid or payable.

Other Revenue and Income Recognition

Interest income

Interest income are recognized as it accrues, using the effective interest rate method that is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

Other income

Other income comprise mainly of other food and beverage, membership dues and penalties for late payment. Income is recognized when the risks and rewards of the ownership of goods have passed to the buyer, normally at the time of sale and when the services are rendered.

Direct Costs and Operating Expenses

Direct costs and operating expenses are recognized in the statement of revenues and expenses when decreases in economic benefits during the accounting period in the form of outflows or depletion of assets or decrease of liabilities have arisen that can be measured reliably. Direct costs and operating expenses encompass losses as well as those expenses that arise in the course of ordinary activities of the Club. Direct costs are charged to statement of revenues and expenses when related revenue is recognized while operating expenses are recognized as incurred. Direct costs and operating expenses are generally measured at the amount paid or payable.

Income Taxes

Current income tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Deferred income tax

Deferred income tax is provided, using the liability method, on all temporary differences, with certain exceptions, at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognized for all taxable temporary differences, with certain exceptions. Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits from excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable income will be available against which the deductible temporary differences and carryforward benefits of MCIT and NOLCO can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized, or the liability is settled, based on tax rate (and tax laws) that have been enacted or substantively enacted at the reporting date. Income tax relating to items recognized directly in equity are recognized in equity and not in the statement of revenues and expenses.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same tax authority.

Value-added Tax (VAT)

Expenses and assets are recognized, net of the amount of VAT, except:

- When the VAT incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the VAT is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of VAT included.

The net amount of VAT recoverable from, or payable, to the taxation authority is included as part of receivables or payables in the statement of financial position.

Provisions

A provision is recognized only when the Club has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. Provisions are reviewed at each report date and adjusted to reflect the current best estimate.

Contingencies

Contingent liabilities are not recognized in the financial statements. They are disclosed in the notes to financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but disclosed in the notes to financial statements when an inflow of economic benefits is probable.

Events after the Reporting Date

Any post year-end event up to the date of the auditor's report that provide additional information about the Club's position at the reporting date (adjusting event) is reflected in the financial statements. Any post year-end event that is not an adjusting event is disclosed, when material, in notes to the financial statements (see Note 21).

3. Significant Accounting Judgments, Estimates and Use of Assumptions

The preparation of the Club's financial statements in compliance with PFRS requires management to make judgments, estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Future events may occur which can cause the assumptions used in arriving at those estimates to change. The effects of any changes in judgments and estimates will be reflected in the financial statements as they become reasonably determinable. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgment

In the process of applying the Club's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effects on the amounts recognized in the financial statements:

Identification of contracts with customers under PFRS 15

The Club applies PFRS 15 guidance to a portfolio of contracts with similar characteristics as the Club reasonably expects that the effects on the financial statements if applying this guidance to the portfolio would not differ materially from applying this guidance to the individual contracts within that portfolio. Hence, the Club viewed each transaction receipt as one contract.

Identifying performance obligations

The Club identifies performance obligations by considering whether the promised goods or services in the contract are distinct goods or services. A good or service is distinct when the customer can benefit from the good or service on its own or together with other resources that are readily available to the customer and the Club's promise to transfer the good or service to the customer is separately identifiable from the other promises in the contract.

Determining whether the Club is acting as a principal or agent

The Club assesses its revenue arrangements against specific criteria in order to determine if it's acting as principal or agent. The following criteria indicate whether the Club is acting as a principal or an agent:

- The Club has the primary responsibility for providing services to the customer;
- The Club has latitude in establishing price, either directly or indirectly, for example by providing additional services; and,
- The Club bears the customer's credit risk for the amount receivable from the customer.

The Club has concluded that generally, it is acting as a principal in its revenue arrangements.

Finance lease classifications - the Club as lessee

The Club's classification of a lease depends on the substance of the transaction rather than the form of the contract. The following situations individually or in combination would normally lead to a lease being classified as a finance lease:

- the lease transfers ownership of the asset to the lessee by the end of the lease term;
- the lessee has the option to purchase the asset at a price which is expected to be sufficiently lower than the fair value at the date the option becomes exercisable such that, at the inception of the lease, it is reasonably certain that the option will be exercised (frequently called a 'bargain purchase' option);
- the lease term is for the major part of the economic life of the asset even if title is not transferred;
- at the inception of the lease the present value of the minimum lease payments amounts to at least
- substantially all of the fair value of the leased asset; and
- the leased assets are of a specialized nature such that only the lessee can use them without major modifications being made.

The Club has assessed its agreement with Engie Services for the installation, operation and maintenance of chilled water supply for the Club's air-conditioning system. The Club has concluded that it has acquired significantly all the risks and rewards of ownership of the equipment and accounted the agreement as a finance lease (see Note 19).

Evaluation of impairment on nonfinancial assets

The Club assesses asset impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Club considers the following factors, which could trigger an impairment review, as important:

- Significant underperformance relative to expected historical or projected future operating results;
- Significant changes in the manner of use of the acquired assets or the strategy for overall business; and,
- Significant negative industry or economic trends.

In determining the present value of estimated future cash flows expected to be generated from the continued use of the assets, the Club is required to make estimates and assumptions that can materially affect the financial statements.

As of December 31, 2021, and 2020, the Club has assessed that no impairment indicators exist on its nonfinancial assets.

Recognition of deferred tax assets

The Club reviews the carrying amounts of deferred tax assets at each reporting date and reduces it to the extent that it is no longer probable that sufficient income will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that the Club will generate sufficient future taxable profit to allow all or part of its deferred income tax assets to be utilized.

In 2021 and 2020, the Club recognized deferred tax asset on the carryforward benefits of NOLCO and contract liabilities but up to the extent only of the deferred tax liability on the temporary difference arising from the Club's finance lease transaction amounting ₱4.60 million and ₱5.39 million, respectively (see Note 16).

As of December 31, 2021, and 2020, the Club recognized deferred tax assets amounting to ₱4.60 million and ₱5.39 million, respectively. Since management believes that it is likely that the carryforward benefit of recognizing deferred tax assets may not be realized, the Club did not recognize deferred tax assets on the tax effect of the temporary differences related to provision for retirement expense, allowance for doubtful accounts, contract liabilities, NOLCO and MCIT amounting to ₱55.89 million and 43.97 million as of December 31, 2021 and 2020, respectively (see Note 16).

Use of Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Provision for expected credit losses of contract receivables

The Club uses a provision matrix to calculate ECLs for contract receivables. The provision rates are based on days past due. The provision matrix is initially based on the Club's historical observed default rates. The Club calibrates the matrix to adjust the historical credit loss experienced with forward-looking information. At every financial reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

The assessment of the correlation between historical observed default rates, forecast economic conditions (e.g., gross domestic product and inflation rate) and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Club's historical credit loss experience and forecast of economic conditions may also not be representative of member's actual default in the future.

In assessing the provision for the year, the Club used interest and unemployment rates to adjust its historical data. The Club has considered the impact of COVID-19 pandemic and revised its assumptions in determining the macroeconomic variables and loss rates in the computation of expected credit loss. The changes in the gross carrying amount of receivables during the year and impact of COVID-19 pandemic did not materially affect the Club's allowance for expected credit loss.

As of December 31, 2021 and 2020, the allowance for expected credit loss amounted to ₱2.66 million (see Note 5).

Estimating useful lives of property and equipment

The Club estimates the useful lives of its property and equipment based on the period over which these assets are expected to be available for use. The EUL of property and equipment are reviewed at least annually and are updated if expectations differ from previous estimates due to physical wear and tear, and technical or commercial obsolescence on the use of these assets. It is possible that future results of operations could be materially affected by changes in estimates brought about by changes in factors mentioned above. There were no changes on the EUL of the property and equipment.

The carrying value of property and equipment amounted to ₱391.96 million and ₱399.97 million as of December 31, 2021, and 2020, respectively (see Note 8).

Estimating pension liability

The determination of the Club's obligation and cost of pension and other benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in Note 18 and include, among others, discount rates and rates of salary increase. While the Club believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the pension and other obligations.

Pension liability as of December 31, 2021, and 2020 amounted to ₱9.92 million and ₱10.23 million, respectively (see Note 17).

4. Cash

Cash in banks earn interest at the prevailing bank deposit rates. Interest income from deposits and savings accounts amounted to ₱0.11 million and ₱1.04 million in 2021 and 2020, respectively (see Notes 10 and 15).

There is no cash restriction on the Club's cash balances as at December 31, 2021 and 2020.

Ownership of the installations will transfer to the Club upon the date of completion of testing and commissioning and upon termination or expiration of the agreement, which shall have a term of ten (10) years from the commencement date, respectively. This is included under "Sports, kitchen and other facilities and equipment" (see Notes 8 and 19).

On April 21, 2016, the Club entered into an agreement with Engie Services (Philippines) (Engie, formerly known as Cofely Philippines) wherein Engie will operate and maintain installations that will supply chilled water to the Club for a period of ten (10) years. The terms of the agreement require the Club to make monthly fixed payments of ₱246,000, exclusive of VAT from the date of the agreement until the date of completion of testing and commissioning of the chilled water installations.

Upon completion of testing and commissioning, the Club is required to make fixed monthly payments of ₱622,000, exclusive of VAT, for ten (10) years, representing the fixed period charges of the Club for the use of the chilled water.

The agreement further stipulates that Engie will initially shoulder the cost of the installations for the chilled water supply owned by the Club and Engie will bill the Club for its share of the cost of the installations. Engie shall transfer the possession of the Club's share of the installations upon completion of testing and commissioning.

Total interest expense recognized on this obligation under finance lease in 2021 and 2020 amounted to ₱6.62 million and ₱6.89 million, respectively. These were included under "Finance costs" in the Club's statements of revenues and expenses.

The present value of the obligation under finance lease amounted to ₱16.75 million and ₱17.59 million as of December 31, 2021 and 2020, respectively.

The carrying value of the Club's finance lease asset (under sports, kitchen and other facilities and equipment) amounted to ₱31.57 million and ₱33.64 million as of December 31, 2021 and 2020, respectively (see Note 8).

Compared to year 2021, Food and Beverage increased by 30.6%, Membership dues increased by .2%, Sports and Recreation increased by 35.5% while Club Shop and others decreased by 31.1%. Overall increase in revenues compared to year 2021 was 11.1%. The increase in the performance of Club for the first quarter is due to the easing of restrictions of the pandemic. The Club was closed on March 17, 2020 when the government declared a total lockdown in Metro Manila. Since then, the country has undergone various quarantine classifications depending on the number of positive cases reported. On November 11, 2021, the government approved the nationwide rollout of the Alert Level System and adopted guidelines to be implemented and enforced in all areas. The government declared Metro Manila under Alert Level 1, where cases are low and decreasing. Facilities of the Club gradually were opened but still subject to safety protocols. Financial Assets and Liabilities

Financial assets and financial liabilities are recognized initially at fair value. Transaction costs are included in the initial measurement of all financial assets and liabilities, except for financial instruments measured at fair value through profit or loss (FVPL)

The club recognizes a financial asset or financial liability in the balance sheets when it becomes a party to the contractual provisions of the instrument

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at cost using the effective interest method. Gains and losses are recognized in the statements of revenue and expenses when loans and receivables are derecognized or impaired, as well as through the amortization process.

Loans and receivables are classified as current when these are expected to be realized within twelve months from the reporting date. Otherwise, these are classified as noncurrent assets.

This category includes the Club's cash and receivables.

Other Financial Liabilities

Other financial liabilities are non-derivative financial liabilities with fixed or determinable payments that are not quoted in an active market. These liabilities are carried at cost or amortized cost in the balance sheet. Amortization is determined using the effective interest method.

Included in this category are the Club's trade and other payables and due to a related party.

Impairment of Financial Assets

An assessment is made at each reporting date as to whether there is objective evidence that a financial asset or group of financial assets may be impaired. If such evidence exists, any impairment loss is recognized in the statement of revenues and expenses.

Inventories

Inventories are valued at the lower of cost or net realizable value (NRV). NRV is the estimated selling price in the ordinary course of business less estimated costs necessary to make the sale. Cost is determined using the first-in, first-out method.

Property and Equipment

Property and equipment consists of land and land improvements, buildings and facilities and equipment. Except for land, the Club's property and equipment are stated at cost less accumulated depreciation and amortization and impairment in value, if any. Land is stated at cost less any impairment in value.

The initial cost of property and equipment consists of its purchase price, including import duties, taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the assets have been put into operation, such as repairs and maintenance, are normally charged to operations in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment. When assets are sold or retired, their cost and accumulated depreciation and amortization are eliminated from the accounts and any gain or loss resulting from their disposal is included in the statement of revenues and expenses.

Depreciation and amortization is calculated on a straight-line basis over the estimated useful life of the related assets as follows:

Land improvements	10 years
Building	40 years
Sports, kitchen and other facilities and equipment	5 to 10 years

The Club estimates the useful lives of its property and equipment based on the period over which these assets are expected to be available for use. The useful lives and depreciation and amortization methods are reviewed periodically based on factors that include asset utilization, internal technical evaluation, technological changes, environmental and anticipated use of the assets tempered by related industry benchmark information. It is possible that future results of operations could be materially affected by the changes in the factors mentioned. A reduction in the estimated useful lives of property and equipment would increase depreciation and amortization expenses and decrease property and equipment.

Retirement Benefit Costs

Pension costs are actuarially computed using the projected unit credit valuation method. Under this method, the current service cost is the present value of retirement benefits payable in the future with respect to the services rendered in the current period. Actuarial valuations are conducted with sufficient regularity, with option to accelerate when significant changes to underlying assumptions occur.

Revenue Recognition

Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the Club and the amount of revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized.

Membership dues

Membership dues to support the operation and maintenance of the Club are billed one month in advance and are credited to operations in the period to which the dues apply.

Collections for accounts which are not yet due and therefore do not qualify for revenue recognition are recorded as "Membership dues paid in advance" in the liabilities section of the financial position.

Food & Beverage

Revenue from sale of food and beverages are recognized when served.

Sports & Recreation

Revenue from sports and recreation are recognized when services have been rendered.

Club Shop & others

Revenue is recognized when the risk and rewards of ownership of the goods have passed to the buyer.

Interest Income

Interest income is recognized as it accrues taking into account the effective yield on the asset.

Equity

Capital Stock is measured at stated price for all shares issued.

'Accumulated deficiency of revenues and membership dues over cost and expenses' represents accumulated losses and earning and any adjustment arising from application of new accounting standard, policies or corrections of errors applied retroactively by the Club.

Cost and Expenses

"Direct costs" and "operating expenses" are expenses that arise in the course of the ordinary operations of the Club. Direct costs and operating expenses are expensed as incurred.

Provisions

A provision is recognized only when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Contingencies

Contingent liabilities are not recognized in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is not recognized in the financial statements but disclosed when an outflow of economic benefit is probable.

For the six months revenue as of June 30, 2022, revenue was ₱145.7 million compared to ₱92 million in year 2021 and ₱105 million in year 2020. The increase in the performance of Club for the second quarter is due to the easing of restrictions of the pandemic. The Club was closed on March 17, 2020 when the government declared a total lockdown in Metro Manila. Since then, the country has undergone various quarantine classifications depending on the number of positive cases reported. On November 11, 2021, the government approved the nationwide rollout of the Alert Level System and adopted guidelines to be implemented and enforced in all areas. The government declared Metro Manila under Alert Level 1, where cases are low and decreasing. Facilities of the Club gradually were opened but still subject to safety protocols. The Deli remained available for food delivery. Food

and Beverage contributed 52.5% to total revenue, Membership dues 24.0%, Sports and recreation 6.9% and Club shop and other revenues 6.6%.

Total direct cost was ₱61.3 million in the second quarter compared to ₱24.8 million in the same period of year 2021 and ₱14.4 million in 2020. Food and Beverage cost contributed 33.8%, payroll cost at 17.1%, utilities and supplies at 11.4% and the rest at 6.5%. Compared to year 2021, total direct cost increased by ₱36.5 million mainly due to increased business and resulting to increase in operating expenses. Payroll cost increased by 98.6% since most of the restaurant outlets became operational.

Non-revenue departments such as administrative, depreciation, engineering and housekeeping showed an increase of 21.2% for the second quarter ending June 30, 2022. From ₱25.4 million in 2021, it posted an increase of ₱4.4 million in 2022 mainly due to an increase in various operating costs such as payroll, contract services, operating supplies and credit card fees compared to year 2021. Included in the operating supplies are the various supplies for pandemic like face shields, face masks and disinfectants.

As of June 30, 2022, revenues over cost and expenses before other income and finance lease was a loss of ₱.2 million compared to loss of ₱ 6.1 million last year. Finance lease decreased by 5.1% while other income increased by 8.8%. Total number of members as of June 30, 2022 was 2,166 or an increase of 9 members from 2157 as of December 31, 2021. The availability of shares from the secondary market and the uncertainty brought about by the pandemic is resulting to the slow sales of fresh shares.

Total asset as of June 30, 2022 was ₱926.0 million compared to ₱938.2 million as of December 31, 2021 or a decrease of ₱12.2 million. Accounts receivable decreased by ₱3.8 million and inventories decreased by ₱.9 million. Advances to suppliers decreased by 9.6%. Other current assets increased by 304.2% or ₱5.1 million due to the prepayments for property taxes, licenses and permits and association dues. Deferred input Vat decreased by 20.2%. Total current assets stands at ₱126.0 million compared to ₱124.0 million in December 31, 2021 or an increase of 1.6% or ₱2.0 million.

Total current liabilities amounted to ₱57.2 million on June 30, 2022 and ₱67.7 million on December 31, 2021 or a decrease of 15.6%. Accounts and other payables decreased to ₱42.7 million from ₱44.2 million in December 31 2021 or a 3.5% decrease. This is due to payments made to suppliers and manning agencies. Due to related party increased by 27.1% from ₱.3 million in December 2021 to ₱.4 million by June 30, 2022. Contract liabilities decreased by 38.9% or ₱ 8.5 million. Quick ratio is favorable at 1.9 while solvency ratio is at 11 with total assets of ₱926.0 million over total liabilities of ₱82.7 million. THE PALMS COUNTRY CLUB, INC.
NOTES TO FINANCIAL STATEMENTS

I. Summary of Significant Accounting Policies

Basis of Preparation

The financial statements have been prepared under the historical cost basis and are presented in Philippine Peso (P) which is the Club's functional currency. All values are rounded to the nearest Peso, except when otherwise indicated.

Statement of Compliance

The accompanying financial statements of the Club have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

Accounting Policies

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash in banks earn interest at the prevailing bank deposit rates.

Financial Assets and Liabilities

Financial assets and financial liabilities are recognized initially at fair value. Transaction costs are included in the initial measurement of all financial assets and liabilities, except for financial instruments measured at fair value through profit or loss (FVPL)

The club recognizes a financial asset or financial liability in the balance sheets when it becomes a party to the contractual provisions of the instrument

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at cost using the effective interest method. Gains and losses are recognized in the statements of revenue and expenses when loans and receivables are derecognized or impaired, as well as through the amortization process.

Loans and receivables are classified as current when these are expected to be realized within twelve months from the reporting date. Otherwise, these are classified as noncurrent assets.

This category includes the Club's cash and receivables.

Other Financial Liabilities

Other financial liabilities are non-derivative financial liabilities with fixed or determinable payments that are not quoted in an active market. These liabilities are carried at cost or amortized cost in the balance sheet. Amortization is determined using the effective interest method.

Included in this category are the Club's trade and other payables and due to a related party.

Impairment of Financial Assets

An assessment is made at each reporting date as to whether there is objective evidence that a financial asset or group of financial assets may be impaired. If such evidence exists, any impairment loss is recognized in the statement of revenues and expenses.

Inventories

Inventories are valued at the lower of cost or net realizable value (NRV). NRV is the estimated selling price in the ordinary course of business less estimated costs necessary to make the sale. Cost is determined using the first-in, first-out method.

Property and Equipment

Property and equipment consists of land and land improvements, buildings and facilities and equipment. Except for land, the Club's property and equipment are stated at cost less accumulated depreciation and amortization and impairment in value, if any. Land is stated at cost less any impairment in value.

The initial cost of property and equipment consists of its purchase price, including import duties, taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the assets have been put into operation, such as repairs and maintenance, are normally charged to operations in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment. When assets are sold or retired, their cost and accumulated depreciation and amortization are eliminated from the accounts and any gain or loss resulting from their disposal is included in the statement of revenues and expenses.

Depreciation and amortization is calculated on a straight-line basis over the estimated useful life of the related assets as follows:

Land improvements	10 years
Building	40 years
Sports, kitchen and other facilities and equipment	5 to 10 years

The Club estimates the useful lives of its property and equipment based on the period over which these assets are expected to be available for use. The useful lives and depreciation and amortization methods are reviewed periodically based on factors that include asset utilization, internal technical evaluation, technological changes, environmental and anticipated use of the assets tempered by related industry benchmark information. It is possible that future results of operations could be materially affected by the changes in the factors mentioned. A reduction in the estimated useful lives of property and equipment would increase depreciation and amortization expenses and decrease property and equipment.

Retirement Benefit Costs

Pension costs are actuarially computed using the projected unit credit valuation method. Under this method, the current service cost is the present value of retirement benefits payable in the future with respect to the services rendered in the current period. Actuarial valuations are conducted with sufficient regularity, with option to accelerate when significant changes to underlying assumptions occur.

Revenue Recognition

Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the Club and the amount of revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized.

Membership dues

Membership dues to support the operation and maintenance of the Club are billed one month in advance and are credited to operations in the period to which the dues apply.

Collections for accounts which are not yet due and therefore do not qualify for revenue recognition are recorded as "Membership dues paid in advance" in the liabilities section of the financial position.

Food & Beverage

Revenue from sale of food and beverages are recognized when served.

Sports & Recreation

Revenue from sports and recreation are recognized when services have been rendered.

Club Shop & others

Revenue is recognized when the risk and rewards of ownership of the goods have passed to the buyer.

Interest Income

Interest income is recognized as it accrues taking into account the effective yield on the asset.

Equity

Capital Stock is measured at stated price for all shares issued.

'Accumulated deficiency of revenues and membership dues over cost and expenses' represents accumulated losses and earning and any adjustment arising from application of new accounting standard, policies or corrections of errors applied retroactively by the Club.

Cost and Expenses

"Direct costs" and "operating expenses" are expenses that arise in the course of the ordinary operations of the Club. Direct costs and operating expenses are expensed as incurred.

Provisions

A provision is recognized only when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Contingencies

Contingent liabilities are not recognized in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is not recognized in the financial statements but disclosed when an outflow of economic benefit is probable.

The land forms part of Lot 392 of the Muntinlupa Estate in the name of the Republic of the Philippines and developed by Filinvest Alabang, Inc. (the developer referred to in Note 10) into what is now known as the Filinvest Corporate City (FCC). Lot 392 was the subject matter of Civil Case Nos. 99-075 and 99-320 for annulment of titles and contracts, considered to be nuisance suits. In its Resolution dated July 30, 2007, the Supreme Court affirmed the dismissal of Civil Case No. 99-075 by the trial court and Court of Appeals. On the other hand, the trial court has required the plaintiffs in Civil Case No. 99-320 to pay the docket fees corresponding to the value of the property subject of this case. As of December 31, 2009, the plaintiffs have not done so. Accordingly, counsel of FAI filed in February 2009 a "Motion to Dismiss" praying that the case be dismissed with prejudice. The motion to dismiss was granted on November 19, 2009.

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

Discussion of the Results of Operations for 2021 vs. 2020 and 2019

The impact of the Covid-19 pandemic was very evident in the results of operations for the year 2020 and 2021 comparing to year 2019. Although there was an improvement in year 2021 due to easing of restrictions, the Club operations still resulted to a net loss.

The Club generated total revenue of ₱199.1 million for the year ended December 31, 2021 compared to ₱192.9 million in 2020 and ₱367.6 million in 2019. Food and Beverage revenues increased by ₱3.9 million from ₱83.9 million in 2020 to ₱87.8 million this year. The Club allowed the members to order food for delivery and opened some outlets but with very low patronage. Food and beverage contributed 44.1% to the total revenue. Membership dues collected for the year was ₱85.2 million or 42.8% of total revenues. Despite closure of the Club, membership dues were continually charged to members. Sports and recreations posted revenues of ₱7.4 million in 2021, ₱7.7 million in 2020 and ₱27.9 million in 2019. It contributed to the total club revenues of 3.7%, 4.0% and 7.5% respectively. The decrease in revenues of ₱.24 million in 2021 is mainly due to cancellation of major sports events and activities. Club Shop and other miscellaneous revenues was ₱18.7 million in 2020, ₱15.6 million in 2020 and ₱32.6 million in 2019. It contributed 20.2% in this year's total revenues. Club Shop and other revenues include transfer fees, assignment and re-nomination fees, revenues from party packages, equipment hires, and sales from merchandise, among others.

Total direct cost amounting to ₱124.7 million represented 62.7% of the total revenues compared to 62.4% or ₱120.3 million in 2020 and 70.2% or ₱251.3 million in 2019. Total cost of Sales percentage was 26.7% of the total revenues in 2021 compared to 25.3% in 2020. Direct payroll cost was ₱34.7 million in 2021 and ₱38.9 in 2020 or 17.4% and 20.2% respectively. Other major direct costs relate to utilities, laundry and operating supplies which accounted for ₱24.7 million or 12.4% of the total revenue for 2021 and ₱23.2 million or 12.0% in 2020. Banquets and special events expenses was ₱5.1 million. Marketing and other expenses was ₱4.6 million, and other direct expense of ₱1.0 million.

The total other operating expenses excluding depreciation amounted to ₱57.2 million in December 31, 2021 compared to ₱63.3 million in 2020 and ₱73.3 million in 2019. Excluded in the operating expenses is the ₱6.6 million lease charges of chilled water supply for the year 2021. The decrease is attributed to the decrease in general and administrative expenses as effect of the limited operations of the Club. The management continues to implement measures to control operating costs.

Total depreciation expense for 2021 was ₱28.7 million compared to ₱28.6 million in 2020 or a decrease of ₱.2 million or .5%. This is because some equipment has fully depreciated this year.

There were 6 new members from 2,151 in December 31, 2020 to 2,157 in December 31, 2021. The slow growth in the sale of shares can be attributed to the availability of the secondary market which is competing in the sale of fresh shares. Total membership dues collected for the year was ₱85.2 million. Management continues to implement a discount scheme where members have the option to pay in advance twelve-month's worth of membership dues in exchange for ₱3,300.00 worth of gift voucher which members can avail in any restaurant outlets in the Club.

Total Current Assets stand at ₱124.7 million this year compared to ₱139.3 million in December 31, 2020 and ₱169.6 million in 2019. Of the total current assets, 62.8% represented cash, 26.1% contract receivables, .5% due from related parties, 7.7% inventories and 2.8% other current assets. Contract receivable as of December 31, 2021 increased by 21.3% due to the increase in members' usage of facilities. Since the alert level 1 was implemented, members started coming to the club. Total inventories also increased by 6.7% in December 31, 2021 mainly due to increased purchases of food and beverages.

Acquisition of property and equipment for the year ending December 31, 2021 was ₱22.2 million. Major repairs were done which includes the waterproofing of Multipurpose Hall (MPH) area, additional computers for offices, the Human Resources Information System (HRIS) project and some kitchen equipment to name a few. The equipment and repairs are needed to maintain and improve the quality of facilities and services available to the members.

Total current assets stood at ₱124.8 million while current liabilities stood at ₱67.3 million. The Club's current ratio was at 1.84 by December 2021. To improve cash position, penalty charges of 2% per month or 24% per annum were enforced against members with overdue accounts. In addition, the use of the Club's facilities and amenities is suspended with respect to members whose accounts are overdue for 60 days or more. Quick ratio is favorable at 1.65 while solvency ratio is at 10.3 with total assets of ₱938.9 million over total liabilities of ₱93.6 million. The Club's debt ratio is strong at 0.11 with total liabilities of ₱93.6 million over total assets of ₱938.9 million.

This is a comprehensive rehabilitation of the air-conditioning system of the Club. The terms of the agreement require that the Club make monthly fixed payments of ₱246,000 exclusive of VAT from the date of agreement until the date of completion of testing and commissioning of the chilled water installations. The agreement further stipulates that Engie will initially shoulder the cost of the installations for the chilled water supply owned by the Club and Engie to bill the Club for its share of the cost of installations. Upon completion of testing and commissioning, the Club is required to make fixed monthly payments of ₱622,000 exclusive of VAT, for the next ten (10) years representing the fixed period charges of the Club for the use of the chilled water and after which, the ownership of the remaining installations will be vested to the Club. As of December 31, 2017, the Club has paid Engie ₱22.5 million representing Club's share in the cost of installations.

The Club was closed on March 17, 2020 when the government declared a total lockdown in Metro Manila. Since then, the country has undergone various quarantine classifications depending on the number of positive cases reported. On November 11, 2021, the government approved the nationwide rollout of the Alert Level System and adopted guidelines to be implemented and enforced in all areas. The government declared Metro Manila under Alert Level 1, where cases are low and decreasing. Facilities of the Club gradually were opened but still subject to safety protocols. Total number of members as of June 30, 2022 was 2,166 or an increase of 9 members from 2157 as of December 31, 2021. The availability of shares from the secondary market and the uncertainty brought about by the pandemic is resulting to the slow sales of fresh shares.

Accounts receivable decreased by ₱3.8 million and inventories decreased by ₱.9 million. Advances to suppliers decreased by 9.6%. Other current assets increased by 304.2% or ₱5.1 million due to the prepayments for property taxes, licenses and permits and association dues. Deferred input Vat decreased by 20.2%.
